

What Happens in the Early Years Matters Forever

VAIMH Strategic Plan
“What Happens in the Early Years Matters Forever”
2021 - 2023

Vision: Infant mental health supports and strengthens nurturing relationships between infants, young children and their family and caregivers to build healthy social emotional development.

Mission: VAIMH strives to promote social emotional health and wellness in infants and young children through building awareness, promoting professional capacity, fostering partnerships and supporting policies which are in the best interest of infants, young children and their families.

Value: Importance of Relationships

- Understands the importance of relationship, the primary instrument for growth and change.
- Uses knowledge and skills to provide services that promote, support, restore and sustain nurturing relationships for all infants and families.
- Works to establish strong, collaborative relationships with community professionals to enhance services to all infants and families.
- Understands the importance of past relationship experiences to the development of current relationships.

Value: Respect for Ethnicity, Culture, Individuality and Diversity

- Understands and respects the uniqueness of each individual with respect for ethnicity, culture, individuality, and diversity in all aspects of infant and family practice.

Value: Integrity

- Practices in ways that are ethical, trustworthy, honest, responsible, and reliable.

Value: Confidentiality

- Abides by the ethical standards of the agency or place of work and is guided by the legal and practice standards in human services.

Value: Knowledge and Skill Building

- Works continuously to acquire new knowledge and skills to enhance best practice within the infant and family field.

Value: Reflective Practice

- Seeks out and uses Reflective Supervision and Consultation to reflect on professional development and personal growth related to work with or on behalf of infants and families.

Beliefs:

- Optimal growth and development occur within nurturing relationships;
- The birth and care of a new baby offer a family the possibility of new relationships, growth and change;
- What happens in the early years affects the course of development across the lifespan;
- Early developing attachment relationships may be distorted or disturbed by parental histories of unresolved losses and traumatic life events;
- The therapeutic presence of an IMH Specialist may reduce the risk of relationship failure and offer the hopefulness of warm and nurturing parental responses.
